STRATEGIC POSITION

The airport location is ideal for economic development. The Gatineau Airport is located 20 minutes away from both Gatineau and Ottawa's downtown, less than an hour from the Mirabel Aerospace Center and less than two hours from the greater Montreal. It is also located close to several aviation agencies such as:

A TRUE PORTAL TO WESTERN QUEBEC

The Canadian Armed Forces headquarters

NAV Canada

Embassies and head offices of major Canadian aerospace companies

COMPETITIVE EDGE

Qualified and available workforce

A new traffic lane parallel to the runway

The expansion of the terminal

A large airspace adjacent to the airport

Indoor and out door spaces available for business development

THE CREATION OF AN INTERNATIONAL TRAINING CENTER

An external firm concluded that the Gatineau region has everything it takes to become a World-Class Training Center. The airport currently hosts two major flight schools.

DEVELOPMENT PLAN

In order to welcome and support major aeronautical companies, the airport relies on six strategic components: an aerospace industry hub, executive aircraft, military aircraft, general aviation, training and operational maintenance airport.

MAJOR EVENTS

Every year, the Gatineau Airport hosts large-scale aeronautical events. Attracting tens of thousands of people, these events showcase the world of aviation and air shows.
